

"Tom Eltang undoubtedly is one of the most creative and skillful pipemakers I have ever met. My first meeting with him took place in 1993, when he had a workshop in Vedbæk. Since then I have spent a lot of time in his workshop and seen so many of his ideas come to life.

Tom Eltang is making extremely beautiful pipes, but that is not the only reason for writing this book. Tom has always been very open-hearted and generously shared his knowledge and experiences with others. In that way he has helped a lot of young pipemakers getting started and many of them have been very successful. So, this is a tribute to a very good friend and one of the most dedicated and creative persons I have ever met."
